WORKING PROGRAM OF EDUCATION

1. General provisions

The basis for the development of the Work Program for the upbringing of the educational program of the bachelor's degree in the direction of preparation 38.03.02 Management, focus (profile) "Business Process Management" are The working program of education at the Federal State Autonomous Educational Institution of Higher Education "Moscow Polytechnic University", approved by the Vice-Rector for Educational and Social Work in 2021, and the calendar plan for educational work for the current academic year.

The purpose of educational work, which should be achieved in the process of mastering the educational program by students, is the creation of conditions for the active life of students, their civic self-determination, professional development and individual personal self-realization in creative activities to meet the needs for moral, cultural, intellectual, social and professional development.

Tasks of educational work with students in the process of mastering the educational program are as follows:

– development of the worldview and actualization of the system of basic values of the individual;

– familiarization of students with universal norms of morality, national foundations and academic traditions;

– fostering respect for the law, the norms of collective life, the development of civil and social responsibility as the most important personality trait, manifested in caring for one's country, preserving human civilization;

– fostering a positive attitude to work, development of the need for creative work, education of socially significant purposefulness and responsibility in business relations;

– ensuring the development of the individual and its socio-psychological support, the formation of personal qualities necessary for effective professional activity;

– identification and support of talented students, the formation of organizational skills, creative potential, the involvement of students in the processes of self-development and self-realization;

– formation of culture and ethics of professional communication;

– education of the internal need of the individual in a healthy lifestyle, a responsible attitude to the natural and socio-cultural environment;

– increasing the level of culture of safe behavior;

– development of personal qualities and installations (responsibility, disciplines, self-management), social skills (emotional intelligence, orientation in the information space, speed adaptation, communications; teamwork skills) and managerial abilities (skills to make decisions in conditions of uncertainty and change, time management, leadership, critical thinking).

2. The content of education and the scheme for the formation of professional and personal qualities of students in the process of mastering the educational program

The implementation of the education program during the development of the educational program of the bachelor's degree in the direction of training 38.03.02 Management, focus (profile) "Business Process Management" is carried out in the following areas:

- civil - through the development of general civil value orientations and legal culture through inclusion in social and civic activities;
